SUMMARY

I am a driven Machine Learning and GEN AI Aspirant with a strong foundation in Python and data analysis. My skills in building and optimizing machine learning and complex models, coupled with data visualization expertise, enable me to tackle real-world problems effectively. With a passion for leveraging AI technologies, I seek opportunities to contribute to innovative projects and drive impactful results.

TECHNICAL SKILLS

Langchain: Prompts, Models, Chains, Memory, Indexes, Agents, Huggingface, OpenAI

Programming Languages: Python, Java

Data Analysis & Visualization: Pandas, Matplotlib, Seaborn

Machine Learning and Deep Learning: Scikit-learn, PyTorch

Web Development: Django, Streamlit

Web Scraping: Selenium

PROJECTS

HealthBridge-AI(Classification) [checkhere](#)

Designed a multi-disease classification model for brain stroke prediction, obesity detection, and depression risk analysis using health and lifestyle data, leveraging machine learning techniques like XGBoost, Random Forest, and Decision Trees for accurate healthcare analytics and predictive modeling.

Flagship Mobile price prediction(Regression) [checkhere](#)

This machine learning project predicts flagship mobile phone prices using specifications like RAM, ROM, camera quality, battery capacity, and processor brand. Data was scraped from Flipkart using Selenium for training the model.

Product-Based Filtering(NLP) [checkhere](#)

Built a system that takes text-based input to find similar products from a static e-commerce dataset using NLP, with an interactive interface built in Streamlit.

Fashion Recommendation System using Image Similarity [checkhere](#)

Developed a fashion recommendation system using ResNet- 50 to predict similar images, enhancing user experience with personalized, visually-based product suggestions.

EDUCATION

Bachelor of Technology	Geethanjali College of Engineering And Technology	ongoing-8CGPA
Intermediate	Sri Chaitanya Junior Kalasala(SSC)	97%
School Education	Atomic Energy Central School-2 (CBSE)	89%

CERTIFICATIONS/INTERNSHIPS

GOOGLE AI-ML VIRTUAL INTERNSHIP [checkhere](#)

The Google AI/ML Virtual Internship provides participants with hands-on experience in artificial intelligence and machine learning, deep learning.

Python_Essentials

Completed a student level python certification ar Cisco Networking Acamedy.
